

## Drinking Water System

High quality drinking water at your fingertips. No need to buy bottled water ever again!

Use for: Drinking, Cooking, Soups, Coffee, Tea, Ice, Baby Formula, Pets and Plants.

### How It Works:

**Sediment Prefilter:** Stage 1 sediment pre-filter screens out dirt, sand, rust and other microscopic particles 15 times smaller than a grain of sand.

**Carbon Prefilter:** Stage 2 activated carbon filter reduces elements that cause water to taste and smell unpleasant, including the taste and smell of chlorine.
